Customize Wheels and Strings

Import and Export CSV Files

3D Mouse Support (3D Connexion)

Free e-Mail Support

Free Software Updates

Full 5.700+ Fixture Library (AtlaBase)

LED Panel Visualization

MINIMUM SYSTEM REQUIREMENTS

Apart from our current minimum operating system requirements, Capture ARGO should run fine on any standard desktop or laptop computer currently available for purchase. However, bear in mind that visualization software is very demanding on the graphics card. As a good reference point for the capabilities of your hardware you may find PassMark Software's video card benchmark pages for high end GPU's.
