RACK HOG⁴

HOG IN A BOX!

A Hog in a box! RackHog4 has all the power of a HOG 4 console condensed into a 3u rack mount unit making it the ideal solution for fixed install applications such as cruise ships, theme parks, and architectural installations.

4 RACK HOG⁴

RackHog4 is also perfectly suited to operate as a backup to any Hog4 family console. Plug a Nano Hog4 into the RackHog4, add a touch screen and you have a powerful control system ready to take on any show. Perfect for those applications where permanent hardware interfaces are not necessary this Hog is perfect for program and leave situations.

RackHog4, like the other consoles in the HOG4 family, runs on Linux and is compatible with all of the same peripheral hardware. RackHog 4 has no limits, and is fully expandable in conjunction with DMX Processor 8000's.
