

TRU1PCOA

SKU# TRU120

The TRU1PCOA is a 1 foot (0.3m) 12AWG, IP20 rated powerCON TRUE1 to standard powerCON input power adapter. Designed for production use as a solution for those who already own standard powerCON cables and extensions who don't want to invest into powerCON TRUE1 cables and extensions. The TRU1PCOA adapter can be used with fixtures power output side while using your standard powerCON cables for all other power connections. The TRU1PCOA consists of (1) Male powerCON TRUE1 (Neutrik NAC3MX-W), (1) White powerCON (Neutrik NAC3MPB-1) chassis mount connector and a clear heat shrinkable sleeve so each adapter can be labeled.

The powerCON TRUE1 is a locking connector with breaking capacity (CBC), i.e. it can be connected or disconnected under a live load. The standard powerCON is a locking connector without breaking capacity, i.e. it should not be connected or disconnected under a live load!
